

Data Analytics, Data Mining, Data Security & Management

Data Summit 2016 is a leading event for anyone who is serious about Big Data, Data Analytics, and Security in particular related to the Internet of Things. This event intends to bring together professionals, industry experts and leading researchers in the field of data analytics. The conference delves in the diverse field of big data and data mining, covering areas like data analytics for the Internet of Things, data analytics methods and algorithms, data analytics tasks and processes, data analytics applications in science, engineering, healthcare and medicine, big data applications, data mining tools and software, data warehousing, artificial intelligence, machine learning, etc. Data Summit will be held at the Santa Clara, CA, on September 22, 2016.

Maximize your sponsorship ROI

In addition to the specific benefits, outlined in following pages, for each sponsorship category, your company sponsorship ROI is increased since:

- Your message is delivered to over 100 engineering professionals who are expected to attend this event
- Our email list includes **95,000** engineering professionals worldwide. We use this list to frequently promote the event and our sponsors
- Your company skyscraper ad will be posted in the conference website for the entire 2014 year
- Sponsors will receive a complimentary exhibition booth at the event
- Your company logo will be printed on all marketing and technical literature associated with the event
